

noether::MeshModifier

```
classDiagram
    class noether_CleanData["noether::CleanData"]
    class noether_MeshModifier["noether::MeshModifier"]
    noether_CleanData --|> noether_MeshModifier
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'noether::CleanData'. A blue arrow points vertically upwards from this box to a white box labeled 'noether::MeshModifier' at the top. This indicates that 'noether::CleanData' inherits from or specializes 'noether::MeshModifier'.
