

noether::MeshModifier

```
graph BT; A[noether::CompoundMeshModifier] --> B[noether::MeshModifier];
```

The diagram illustrates a class hierarchy. At the bottom is a gray rectangular box containing the text 'noether::CompoundMeshModifier'. A blue arrow points vertically upwards from the center of this box to the center of a white rectangular box above it, which contains the text 'noether::MeshModifier'. This indicates that 'noether::CompoundMeshModifier' is a subclass or inherits from 'noether::MeshModifier'.
